Following the publication of the original article [1], we were notified of a mistake in the Abstract (marked in bold below):

The phrase: “The number of **keratoplasties** increased from 136 in 2010 (15% of the deceased, total = 925) to 251 in 2019 (21%, total = 1214).”

Should read: “The number of **explants** increased from 136 in 2010 (15% of the deceased, total = 925) to 251 in 2019 (21%, total = 1214).”

The original article has been corrected.
